FOR 1851.

KELLY'S PRACTICAL BUILDER'S PRICE BOOK; or, Safe Guide to the Valuation of all Kinds of Artificers' Work; with the modern Practice of Measuring, and an Abstract of the New Building Act for regulating the Construction of Buildings. Revised and corrected by New Calculations upon the present Value of Materials and Labour. Arranged by an Architect of eminence, assisted by several experienced Measuring Surveyors. Illustrated and exemplified by Steel Engravings and numerous Woodcuts. Royal 8vo., price 6s., neatly bound
London: Published by T. KELLY, Paternoster-row; SIMPKIN and MARSHALL; and may be had of all booksellers.
Of whom may be had, New Editions, in Quarto, of the following Practical Architectural Works:—

1. PETER NICHOLSON'S PRACTICAL CARPENTRY, JOINERY, and CABINET MAKING. Revised by TREDGOLD; being a new and complete Prism of Lines, for the use of Workmen; founded on Geometrical and Mechanical Principles. Ten Parts at 3s. or in boards, 30s.; containing upwards of 130 Steel Plates, and numerous Wooden Diagrams.

2. PETER NICHOLSON'S PRACTICAL MASONRY, BRICKLAYING, and PLASTERING. Revised by TREDGOLD; both plain and ornamental; containing a new and complete System of Lines for Stone Cutting, for the use of workmen; the Formation of Mortars, Cements, Concrete, &c.; and a Description of the various Materials employed. Ten parts at 3s. or in boards, 30s.; containing upwards of Seventy Steel Plates and numerous Woodcuts.

3. TREDGOLD and NICHOLSON'S Theoretical and Practical Treatise on the FIVE ORDERS of ARCHITECTURE; containing plain and simple Rules for Drawing and Executing them in the purest style; including an historical Description of Gothic Architecture. Illustrated by upwards of One Hundred Steel Engravings, executed by Artists of first-rate talent, including numerous Diagrams, &c. Twelve Parts at 3s., or in boards, 36s.

4. DESIGNS for COTTAGE and VILLA ARCHITECTURE; containing Plans, Elevations, Sections, Perspective Views, and Details, for the erection of Cottages and Villas. By S. H. BROOKS, Architect. Beautifully engraved on Steel, with Directions for Building, and the estimated cost of each Edifice. Twelve Parts at 3s., or in boards, 36s.

5. DESIGNS for PUBLIC BUILDINGS, consisting of Plans, Elevations, Sections, Perspective Views and Details, of Churches, Chapels, and Ornamental Cottages; Corn Markets, and other buildings for public purposes. By S. H. BROOKS, Architect. Beautifully engraved on Steel. Ten Parts at 3s., or in boards, 30s.

6. THE HOUSE DECORATOR and PAINTER'S GUIDE; containing a Series of Designs for Decorating Apartments with taste, and suited to the various styles of Architecture. By H. W. and A. ARROWSMITH, House Decorators to her Majesty. Ten Parts at 3s., or in boards, 30s.

7. THE HOUSE PAINTER or DECORATOR'S COMPANION; containing a complete Treatise on the Art of House Painting, Graining, and Marbling; including the Origin of Colour, the Laws of Harmonious Colouring, the Manufacture of Pigments, Oils, Varnishes, &c. By W. H. HIGGINS. Esq. A Series painted in actual Specimens of Hand-brush Graining and Marbling. Ten Parts at 3s., or in boards, 30s.

8. THE ENGINEER'S and MECHANIC'S ENCYCLOPÆDIA; a new and enlarged edition, comprehending Practical Illustrations of the Machinery and Processes employed in every description of Manufacture of the British Empire. Illustrated by upwards of Two Hundred Engravings. By LUKE HERBERT, Civil Engineer, &c. The rapid Progress of Mechanical Science has developed many most important facts since the first publication, in 1823, of this Encyclopædia. The Discoveries recently made have engaged the sedulous attention of the Editor; for, as the value of each was tested by experiment, a description was accordingly prepared. By the introduction of new articles, and care in the revision of old ones, this edition has been become systematically enriched; so that it may be received as fully and faithfully expressing "the existing state of Engineering and Mechanism, adapted to the wants of Practical Men." In two large 8vo volumes, cloth, lettered, price 30s.

ARCHITECTURAL PUBLICATION SOCIETY.—Members are hereby informed that PART III. for 1849-50 will be DELIVERED at the end of the ENSUING WEEK. Part I., 1850-51 is now in progress.
WYATT PAPWORTH, Hon. Sec.

Club-Houses.	

The Price will not exceed 2s., handsomely got up.
Edited and Published by JOHN WEALE, 59, High Holborn.

Now published, a new Volume, complete, printed on thick half-colombier, containing Twenty Plates, with Decorated Letterpress, splendidly bulbbound in Red Morocco cloth, gilt and gilt edges, price 21s.

STUDIES of ORNAMENTAL DESIGN.

By CHARLES JAMES RICHARDSON, M.R.I.B.A., &c., one of the Evening Masters of the Head Government School of Design, Somerset House; author of "Studies of Old English Mansions, Gold and Silver Plate, Furniture," &c., "Architectural Remains of the Reigns of Elizabeth and James I.," &c.

Among the plates, will be found the following list of plates:—
Frontispiece.—Fac-simile of original Persian ornamental drawings, designs for Cashmeres, lithographed by F. Bedford, twelve printings; this plate is published at the expense of Government, for distribution among the Schools of Design. Printed Ceiling in the Vermeil Palace Room, by Francesco Albano (nine printings, with colouring by hand). Italian Jewel Embroidery (four printings), pattern from a petticoat belonging to the black statue of the Virgin Mary at Loretto. View of blue and white glass formed in Pompeii, now in the Museum at Naples, from a drawing (full size) by Pietro Marchesena; the pattern now for the first time printed complete in colours (two copies of these plates have been purchased by Government, for distribution among the Schools of Design). This plate is accompanied by an Essay by Arthur Ashpitel, Esq., F.S.A. A Ceiling of the Sala di Gambise, Perugia, painted in 1500 by Pietro Perugino and his pupils (seven printings in colours and gold), with a descriptive Essay by Digby Wyatt, Esq. Chalice from the Church of San Domenico di Urbino (four printings, lithographed by F. Bedford, with descriptive Essay by Digby Wyatt, Esq. Ancient German applique Embroidery (six printings, colours and gold, from an ancient state chair belonging to the Elector of Saxony. Pattern for applique Embroidery. Ancient emblematic Ceiling in the Gallery of Bleeding Hall (the ceiling is 15' feet in length and 8' feet in width; it is now for the first time published and was the richest specimen of Elizabethan architecture in England).
Published by JOHN WEALE, Architectural Library, 59, High Holborn; and by C. J. RICHARDSON, Architect, 27, Brompton Crescent, Brompton.

GREAVES'S BLUE LIAS LIME, LIAS PORTLAND, and IMPROVED ROMAN CEMENTS; also, Warwickshire Red FLAGGING-STONE, Southam and Stratford-on-Avon, Warwickshire—Offices, Warwick.

AGENTS.

FREEMAN and RICHARDSON,	6, South wharf, Paddington.

BLUE LIAS LIME, PLASTER, &c.

THOMAS FREEN and CO. having combined with their ROMAN CEMENT WORKS an extensive Manufactory of GROUND BLUE LIAS LIME and PLASTER of PARIS, beg to call the attention of Builders and others to the very superior quality of these articles, which they are prepared to supply upon the most reasonable terms.
WORKS—Tuesney Wharf, Regent's Canal, Kingsland-road, London.
DEPOT—Lee's Wharf, Paddington.
N.B. Grey and Chalk Lime, Paving Bricks, Tiles, Artificial Stone, Plasterers' Hair, &c. &c.

PORTLAND CEMENT of superior colour and hydraulic properties.
STAFFORDSHIRE VITRIFIED BRICKS
GLAZED PIPES AND PIKE GOODS.
FREEMAN and RICHARDSON, 6, South Wharf, Paddington.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to Nos. 2222, page 481; and also Nos. 2241 and 2242, pages 543 and 551, of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement to Parker's Cement is manifested. It has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in its consolidation qualities, harder, and more durable than any other description of Cement; it does not separate, crystalize, or turn green; nor is it affected by any other influence whatever, but sets in the strata, resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition. Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland yard, Whitehall; also at their Depôt, 68, Hanover-street, Liverpool.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of wholly resisting frost. When used as a stucco it does not saturate or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brickwork it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior cementing power, combined with its eminently hydraulic properties, puts it out of the Stucco material for buildings and sea-wall, basement walls, the lining of reservoirs, cisterns, and tanks, and for all those purposes where strength and a perfect resistance to water are required.
Manufactory—J. B. WHITE and SONS, Millbank-street, Westminster, and 28, Seel-street, Liverpool.

ATKINSON'S CEMENT.—This Cement has hitherto been manufactured in Yorkshire, and, through long deception at sea, has often proved made and unfit for use on its arrival in London. By the arrangement now made, the Cement will be manufactured in London, and then presented to consumers in a fresh and genuine state, by the sole Agents, J. B. WHITE and SONS, Millbank-street, Westminster.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, grids to sash frames, moulded cornices, and for in-door flooring, instead of stone. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

THE PARIAN CEMENT, for INTERNAL STUCCO.
No. 4, Porchester-terrace North, Paddington,
15th February, 1851.

Dear Sirs,—I have been reluctant to speak to the merits of Parian Cement, until sufficient experience enabled me to do so. As an extensive builder I have given it many trials, and now beg to express my perfect satisfaction with it. The house from whence I date was first inhabited by me on 7th September last, and a brisk fire having been kept before the 1st of January—that is to say, in three months and four weeks—I removed the walls thereof, which, Parian; papered some, painted and marbled others; and the whole work has been dry and perfect from that hour. I need say no more.—I am, Gentlemen, yours respectfully,
BCANTLEBURY.
Messrs. Chas. Francis and Sons, Nine Elms.

MARTIN'S PATENT
FIRE-PROOF AND ORNAMENTAL CEMENT,
APPLICABLE FOR
ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This invaluable Cement has now been before the public so many years, and obtained so high a standing in the estimation of all who have used it, that it is unnecessary to be more particular as to its merits. Messrs. STEVENS and SON, however, feel called upon to observe, that, from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements for internal use, there will be found a gain of 100 per cent. in material, full 7 per cent. less in price, with an additional saving in labour of 10 per cent., by its allowing about forty minutes for working, being less than one-tenth of the time of other cements of a similar nature. Numerous works of well proved durability, together the enormous saving of full THIRTY-THREE PER CENT., in some therefore cannot admit of doubt. Specimens, shewing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement, in any quantity, obtained of Messrs. STEVENS and SON, at their Plaster of Paris Works, 191, Ivery-lane, London.—Manufactory, Derwent Mill, Derby.
N.B. This Cement will receive paint or paper in a few hours after the completion of the work by the plasterer.

JOHNS and CO.'S
PATENT PERMANENT STUCCO WASH,
WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Building Trade and the Public generally, as possessing every advantage over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Pure Colour, but may be tinted in any other—DOES NOT WASH OFF—is perfectly dry in twenty-four hours, and, from its Permanent Character, is well adapted for Railway Stations, Union Workhouses, Barracks, Schools, Prisons, &c. one coat will cover 20 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.
JOHNS and CO.'S STUCCO CEMENT.—This cements, from the great reduction in price, and its entire freedom for internal as well as external surfaces, places it above all other cements of its kind; it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleaned with a brush and water.
The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, as specimens, and every information may be obtained, on application to the Sole Agent, PHILIP HART, at the Warehouse, 28, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.
